Darrin Gladman

Semester Research Analyst

Darrin Gladman is a Semester Research Analyst at Georgetown's Center for Security and Emerging Technology (CSET). He develops statistical methods to analyze high-dimensional data that arises in social sciences, econometrics and machine learning. Prior to joining CSET, he conducted research on motion detection and animal behavior, and co-authored a paper for SPIE Optics and Photonics. He is currently pursuing a B.S. in computer science at Virginia State University.
